### »Before I Die« von Pro

(Album: Dying To Live,  
erschienen 2011 – Label: Reach)

Before I die  
I'll be okay if I never blow  
And if you never make it to a show  
I know that everything come and go  
But what I'm gon' do with my life  
Before I die  
You say that we can never ever change, aye  
I treat this world like whatever mayne, pray  
Before I meet him in the sky  
Then maybe I can save your life  
Before I die

They say get that money, stack that paper  
You wanna live forever, bet it's something you could pay for  
Got this Bentley and Bugatti, what's the need for a savior?  
And this Gucci on my body, thank you Lord for its maker  
I'm like there's gotta be more than plush living  
Benz in the garage, wife with two children  
Or maybe you'll get lucky, night with two women  
And on a bed of money, yeah, that's living  
As I pursued what I was told would make my life better  
Closer I got I found out it made my life deader  
Journeyed on this star trek, begging to be made whole  
My heart became a black hole, no Captain Kirk though  
Darkness surrounded me, evil confounded me  
Worst part about it, it was all found in me  
And what I got to live for?  
What you tell your children 'bout me in the end for?

Before I die  
I'll be okay if I never blow  
And if you never make it to a show  
I know that everything come and go  
But what I'm gon' do with my life  
Before I die  
You say that we can never ever change, aye  
I treat this world like whatever mayne, pray  
Before I meet him in the sky  
Then maybe I can save your life  
Before I die

And maybe before my last breath  
You will see a man that finished the race and ran hard  
until his last step  
Whether it's cash left  
I know my seed will be the branches of a tree of a  
legacy that their dad left  
And let that legacy be rooted in the cross  
Let nothing else be taught, lest I fall and be lost  
If I fall and be lost then use it as a story  
What a man should never be, introduce them to your  
glory  
Before I die, I just gotta be in you so  
After my death they can rejoice at my funeral  
'Cause I'll be still alive, new body I'm inside  
If your faith is in the Lord, then this is not goodbye  
But see you later, I'm going to see the Savior  
In awe of his majesty, I bow before the Maker  
When I move on, let the earth hear this song  
And know that you are King on the throne, I'm gone

Before I die  
I'll be okay if I never blow  
And if you never make it to a show  
I know that everything come and go  
But what I'm gon' do with my life  
Before I die  
You say that we can never ever change, aye  
I treat this world like whatever mayne, pray  
Before I meet him in the sky  
Then maybe I can save your life  
Before I die
